

Salmon Lifecycle Maze

Follow the lifecycle of a salmon through the maze. When you find a number read the caption to see how the salmon is growing.

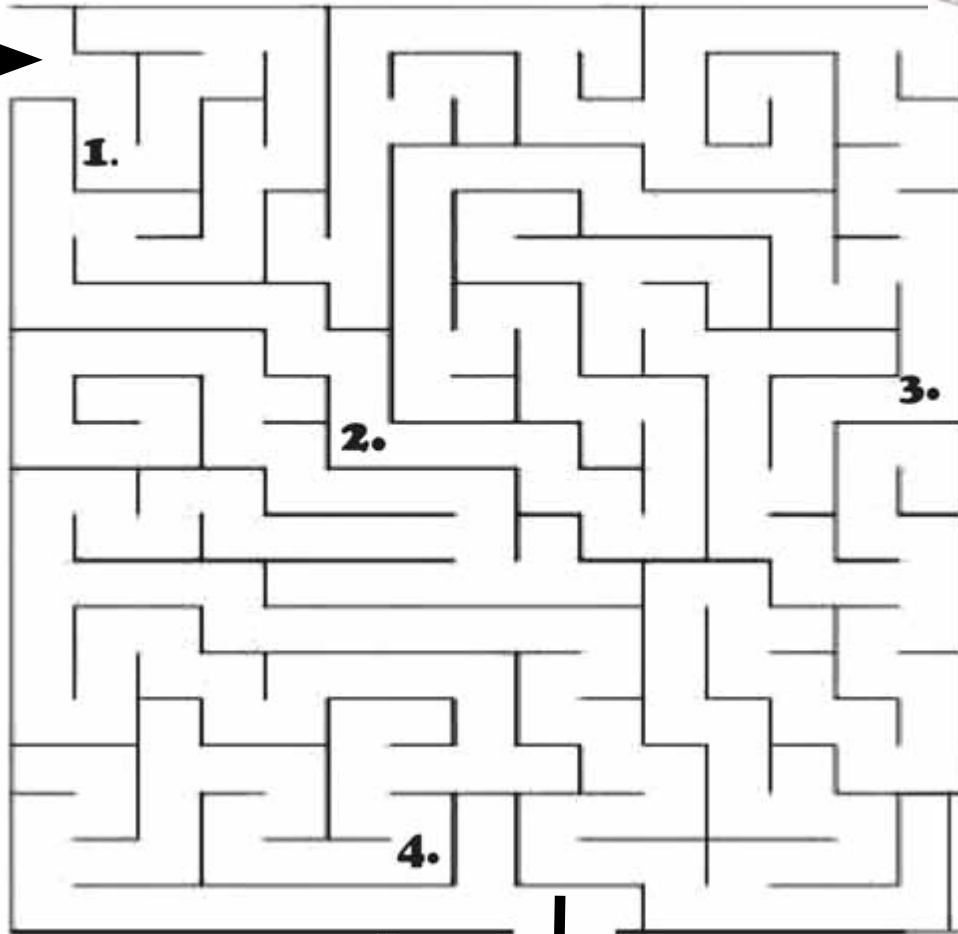

Start

1. Large Brood Stock salmon release tiny eggs.

2. The salmon eggs hatch in a hatchery and grow into small fish.

3. As the small fish continue to grow they are moved to sea farms on the ocean.

4. After growing in sea farms, the large salmon are ready to go to market.

Finish
