

# Wild Blueberry Muffin Math

Susie just opened up a new bake shop called Muffin Mania. This week she had 4 different orders, help her do the math. Draw the blueberries in the blank muffins.

Order #1- Johnny wants 2 muffins with 6 wild blueberries in each muffin. How many blueberries does he need? \_\_\_\_\_

Order #2- Lily wants 3 muffins with 4 wild blueberries in each muffin. How many blueberries does she need? \_\_\_\_\_

Order #3- Mary wants 5 muffins with 5 wild blueberries in each muffin. How many blueberries does she need? \_\_\_\_\_

Order #4- Steve wants 10 muffins, and told Susie to use 50 wild blueberries and to split them up evenly. How many wild blueberries should there be per muffin? \_\_\_\_\_
