Local Code: 1993.3.20

Object Type: Text and Image

*Wolff*

*Milbridge Packing*

WOLFF & COMPANY, doing business in CHERRYFIELD, Washington County, Me., hereby give permission to *John B Sprague of said Cherryfield*

to enter upon the following described land situated in *Cherryfield between the Cherryfield Ridge & Schoodiac Pond on the Freeman lands with the other Ridge teams, except the lot leased to James Orr Ira Corliss. Also the Wakefield lot to be included in this lease* for the purpose of gathering and hauling blueberries, the present year, for said *Milbridge Packing* Wolff & Co., upon the following terms and conditions:

1st. That he shall employ as many pickers to gather the blueberries growing thereon, as may be necessary to secure the crop, and as can work to advantage.

2nd. That he shall see that said berries are properly picked, and without any unnecessary waste, and that rakes shall not be used until liberty is given. *nor the berries run over & trampled down*

3d. That he will protect said ground and berries from trespassers, and report all who do trespass, so far as practicable.

*Milbridge Packing* 4th. That the blueberries picked thereon, shall be hauled and delivered in good condition at said Wolff & Co's Factories, at Cherryfield, unless otherwise directed.

5th. That said pickers shall not sell to, nor pick berries for parties not authorized to receive them, and if they do that they shall not be permitted upon said ground during the berry season, and shall thereafter be treated as trespassers.

6th. That he will haul exclusively to said Factories during the berry season, and work for their interest. *until they shut down*

*Milbridge Packing* The said Wolff & Co., for the foregoing considerations, agree to pay *the sum* <sup>*agreed upon*</sup> cents per quart for all blueberries delivered and measured at said Factories, under this agreement and lease, to be paid when delivered; and should it become necessary to have them delivered to a factory outside of Cherryfield, then an additional fair price shall be given for hauling the same. *The said Lessee is to make new blueberry ground in the spring when no damage can be done by fire.*

*The said Lessors reserve the right to put pickers upon said land if in their judgment they think it necessary in order to secure the crop*

Dated at Cherryfield, the *7th* day of *July* 188*8*

*Milbridge Packing Co.*  
*Wolff & Co.*

YAR092501-9/25/79-ORONO, MAINE: The fuel saving efficiency of a new lowbush blueberry burner shows in this photo with the new system on the left and the older system on the right. The demonstration at the UMaine Orono's campus Blueberry Hill Farm shows the new system, (L), burning some 19 gallons of fuel an hour, while the older system is burning some 50 gallons an hour. Use of the new burner and a system of close mowing of the flat blueberry fields will not only conserve energy but help to improve the field and its plants conditions. UPI (Jonesboro) esw/ho
